

Pocket Buddy

Restaurant Offers, Right in Your Pocket

A React Native mobile app that connects hungry customers with the best restaurant deals — fast, simple, and mobile-friendly.

What Is Pocket Buddy?

Pocket Buddy is a mobile app that brings all restaurant deals into one place. Customers discover discounts easily, and restaurant owners promote their offers directly — no more scattered flyers or missed savings.

For Customers

Find and redeem restaurant deals in seconds

For Restaurants

Promote offers and reach more customers

For Everyone

Simple, fast, and mobile-friendly design

The Problem We're Solving

✅ **Pocket Buddy's Solution:** One app for all restaurant offers — easy search, easy management.

Current Challenges

Scattered Offers

Deals are spread across many platforms — social media, websites, emails — making them hard to find.

Wasted Time

Users spend too long searching for deals instead of enjoying their meals.

Low Restaurant Reach

Small restaurants struggle to get their promotions in front of the right customers.

Project Objectives

Pocket Buddy is built with clear goals to serve both customers and restaurant owners.

1

Centralize Offers

Bring all restaurant discounts into a single, easy-to-browse platform.

2

Discover Easily

Help users find the best deals through smart search and filtering.

3

Empower Owners

Give restaurant owners full control to create and manage promotions.

4

Build Securely

Create a scalable, secure platform that grows with its users.

Technology Stack

Built for Performance

Pocket Buddy uses modern, proven technologies to deliver a smooth experience on both iOS and Android.

- **React Native** — One codebase, two platforms
- **Node.js + Express** — Fast, reliable backend
- **MongoDB** — Flexible, scalable database
- **Razorpay** — Secure payment processing
- **JWT** — Safe, token-based authentication

Who Uses Pocket Buddy?

Customer

- Search and browse offers
- Claim and redeem deals
- Purchase subscriptions

Restaurant Owner

- Add and manage restaurants
- Create and edit offers
- Approve redemption requests

Admin

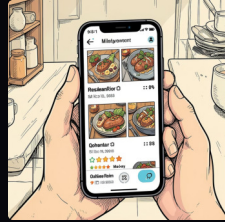

- Manage all users
- Oversee restaurant listings
- Monitor platform activity

Key Features

Registration & Login

Secure, role-based sign-up for customers, owners, and admins.

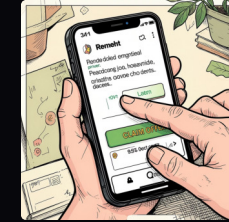

Restaurant Listing

Browse restaurants with photos, details, and active offers.

Search & Filter

Find the perfect deal by location, cuisine, or discount type.

Offer Redemption

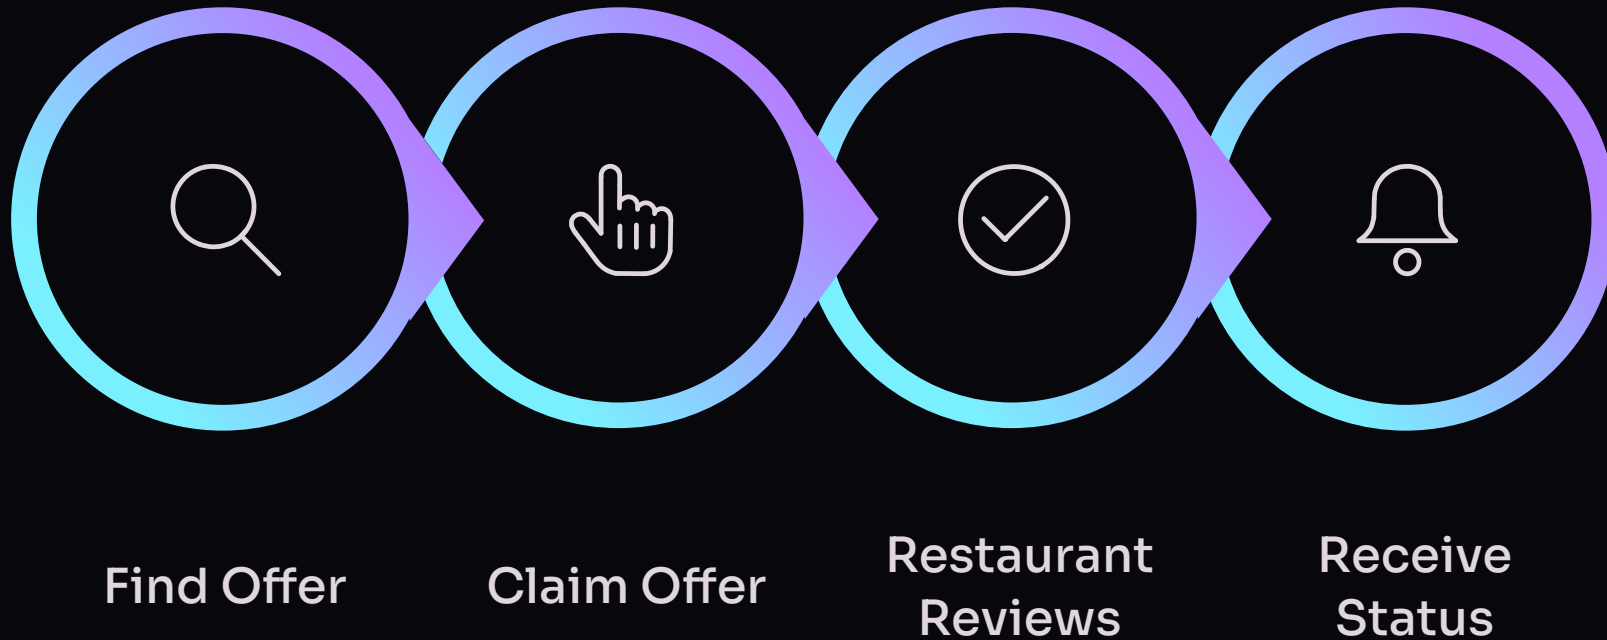

Claim offers instantly and get approval directly from the restaurant.

Subscription Plans

Unlock premium features and exclusive deals with flexible plans.

How Offer Redemption Works

The redemption process is simple and transparent — users request a deal, owners approve it, and everyone stays in control. This prevents misuse and builds trust between customers and restaurants.

Why Pocket Buddy Stands Out

→ One App, All Deals

No more jumping between platforms — every restaurant offer is right here.

→ Real Savings for Customers

Users save money on every meal with easy-to-redeem discounts.

→ More Customers for Restaurants

Owners attract new diners and keep regulars coming back.

→ Built to Scale

Secure, role-based access and a modern tech stack ready for growth.

Wrapping Up

What Pocket Buddy Delivers

A modern, mobile-first platform that brings real value to both customers and restaurant owners — with offer management, subscriptions, and secure access all in one place.

 **Coming Soon:** AI-powered recommendations, push notifications, and QR-based redemption for an even smoother experience.
